

N. M. MUNTASIRUL HAQUE

AI ENGINEER

SUMMARY

AI-focused Computer Science student with hands-on experience in deep learning, computer vision, and research. Published author at ICIICE 2026. Strong foundation in machine learning, data structures, and problem solving with practical project experience in real-world applications.

EDUCATION

North South University — Dhaka, Bangladesh

BSc in Electrical & Computer Engineering (ECE) | Program: CSE | Major: AI

Current Semester: 11th

Govt. Bangla College — HSC (Science), 2020

Naogaon Islamia Fazil Madrasah — SSC (Science), 2018

SKILLS

- **Languages:** Python, C++, Java
- **AI/ML:** Supervised Learning, Classification, Regression, Model Evaluation
- **Deep Learning:** CNN, Object Detection (YOLO), Computer Vision
- **Tools:** NumPy, Pandas, Matplotlib, OpenCV
- **Core CS:** Data Structures, Algorithms, OOP

PUBLICATION

Detection and Classification of Peripheral Blood Cells in Microscopic Images using Deep Learning

Accepted at ICIICE 2026, Dubai

- Developed a two-stage deep learning pipeline for detection and classification
- Used YOLOv8m & RT-DETR for object detection
- Achieved mAP: 0.895, Accuracy: 0.9995, Macro-F1: 0.9953
- Applied CNNs and Vision Transformers for high-accuracy medical image analysis

PROJECTS

Blood Cell Detection & Classification (Deep Learning)

github.com/muntasirul/Detection-and-Classification-of-Peripheral-Blood-Cells

- Built AI system for microscopic image analysis
- Implemented preprocessing, training, and evaluation pipeline
- Applied deep learning techniques for medical dataset classification

Desktop Navigation System (AI-Based Interaction)

github.com/Abbar-Reshad/Desktop-Navigation-System

- Developed multimodal desktop control system
- Improved human-computer interaction using automation
- Designed and implemented system architecture

EXPERIENCE

- Applied deep learning and computer vision techniques in research-level projects
- Worked with real datasets including preprocessing, augmentation, and evaluation
- Solved algorithmic problems using C++ and Java
- Developed strong analytical and debugging skills through independent work

COMMUNICATION

Strong written and verbal communication skills developed through academic coursework, research collaboration, and technical presentations.

LEADERSHIP

Demonstrated leadership by independently driving a published research project from conception to acceptance, coordinating technical development and academic writing simultaneously.

RESEARCH INTERESTS

- Deep Learning & Neural Networks
- Computer Vision & Medical Imaging
- Explainable AI (XAI)
- AI in Healthcare
- Intelligent Systems & HCI

ADDITIONAL

Bengali: Fluent

English: Professional

Tools: MS Office,

Internet Research
